

DANKAMF EDUCATIONAL COMPLEX

ACTIVITY REPORT FOR FIRST TERM 2022

INTRODUCTION

The first term of 2022 academic began successfully despite some challenges concerning the date for reopening. The school officially reopened on Tuesday 18th January 2022 to begin the first term of the academic year. The school as part of implementing wholistic education put in place among other things the following activities: classroom academic work and extracurricular activities such as Inter-houses Mathematics and Science quiz, readathon, debates, excursions, spelling 'B', Sports, mid and end of term examinations, club activities etc. The school's computer lab and library were planned to officially commission on Tuesday 12th April 2022. The school will go on vacation on Thursday 14th April 2022 and resumes for second term on Monday 9th May 2022.

ACTIVITIES

1. ACADEMIC WORK

This is the primary duty of the school to ensuring excellent delivery of academic work to learners to achieve excellence in academic performance. The first term saw vigorous academic activities in the classroom including classroom teaching, exercises and home works.

2. INTER-HOUSES SCIENCE AND MATHS QUIZ COMPETITION

As part of the learning activities and to develop learners' interest in Mathematics and Science, and build their confidence in the two subjects, this activity was organized as a way to boost the confidence levels of learners and improve their skills of answering questions related to Mathematics and Science. Lower and Upper primary learners participated as well as JHS learners.

3. DEBATE

One of our school's vision is development of leadership skills in learners so this activity was organized to develop learners' confidence and fluency skills. Orderly presentation, reading, speaking and ability to present convincing points were part of the practical and critical skills we wanted learners.

4. EXCURSION

The school organized educational excursions for learners from preschool to JHS as part of field trips to seeing some sceneries in Ghana. The first excursion was organized on Monday 7th March for upper primary and JHS learners to Akosombo Hydroelectric station and Adomi Bridge. The second one was organized for KG 1 and 2, Grade 1,2 and 3 to Monkey Sanctuary, Shai Hills-Akuse. The nursery learners were taken to Coral Garden at Valley View to have fun with some playing materials. These activities were made to expose our learners to the realities of things taught in the classroom. They were fun and educative.

5. READATHON

The school organized READATHON activity to develop confidence in learners in reading and to make reading a habit. Learners were given a passage to read within some specified time to the hearing of teachers who judged their speed, correct stress and intonation as well as pronunciation. We made reading a must for all our learners. This activity was organized on Friday 11th March 2022

6. SPORTS

‘All work and no play make Jack a dull boy’, so we organized sporting activities such as football, and athletics. This involved all the learners to teach them the importance of exercising the body, and how exercise makes the body looks strong and healthy.

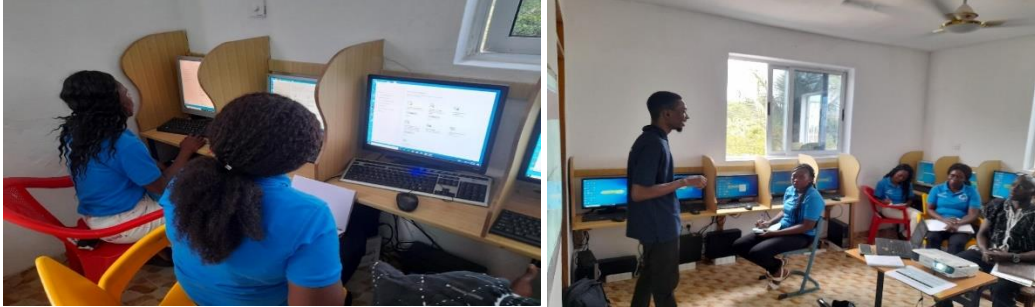

7. FORMATION OF SCHOOL COUNSELLING AND DISCIPLINARY COMMITTEE

Discipline is part of the school’s core values so the school has set up five-member committees for both disciplinary and counselling committees to assist the students in conforming to school rules and regulations and also help students develop self-discipline. The counselling committee will provide social and academic counseling to low performing learners and also help to resolve and mediate conflicts between learners or teachers in the school.

8. TRAINING FOR STAFF ON ICT

The school in its quest to integrate technology in teaching and learning, in partnership with Edify Ghana trained our staff in technology on Wednesday 6th April at the school premises.

9. END OF TERM EXAMINATION

This was organized at the end of the term to assess the performance of learners and how far learners grasp the content of scheme of learning for the term. This term, the school examination was organized by an external examining body to ascertain

CONCLUSION

Then school by the grace is in the right direction to achieving its vision by becoming the leader in private education in Ghana by empowering students with Godly and principles and values to become productive and caring citizens of the world. This, we hope to achieve by the strength of God and intentional implementation of the school's year strategic plan. This first term has been successful by the grace of God so in the second term, we hope to do more to uplift academic performance of learners with Godly principles and values.
